

Have your say on proposals for a new reservoir

Consultation open: 12 October to 21 December 2022

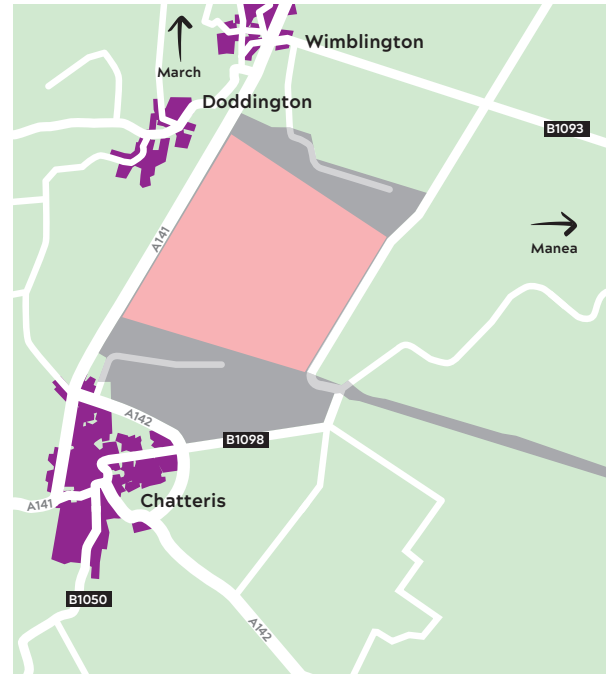

Anglian Water, working in partnership with Cambridge Water, is proposing a new reservoir in the Fens that will secure water supply to our customers for future generations.

The reservoir will store water so it's always on tap when we need it, meeting the challenges of a changing climate and growing population. This means less water taken from sensitive sources, such as chalk streams, protecting and restoring the environment.

The project presents significant social and environmental opportunities too.

Our vision goes beyond just building a reservoir. We want to create a place where water, people and nature come together. That means creating space for wildlife, recreation and education, and natural places for people to explore. It also means new jobs and opportunities for local businesses and tourism.

We appreciate the effect on those impacted by our proposals including homeowners, landowners and the nearby community. We are committed to working with everyone as the project develops and want to hear all views on our emerging proposals.

Go online to find out more about our plans and share your feedback:
www.fensreservoir.co.uk

Key:

- Proposed area for reservoir and its embankments
- Initial area for supporting infrastructure, construction and additional measures

The consultation

The consultation will run from
12 October to 21 December 2022.

Have your say

- Interactive map and feedback form on our website
- Email us at info@fensreservoir.co.uk
- Feedback form – available from an in-person event or request one from our team
- Freepost Fens Reservoir

Meet the team

Meet the team and ask any questions you might have by attending one of the events below:

Community events	Date	Time
Doddington Village Hall, 5 Benwick Rd, Doddington, PE15 0TG	Thursday 3 November	11:30am – 5pm
King Edward Centre, 3 King Edwards Rd, Chatteris, PE16 6NG	Saturday 5 November	2pm – 5:30pm
